FINANCIAL ADVANTAGES VIETNAM

- There are no or minimal import tariffs and restriction on metal products imported from Vietnam imposed by USA, Canada, EU and Australia
- Cheap skilled labor supported by a stable political environment.
- The exchange rate between the Vietnamese Dong (VND) and the USD is in favor of the USD.

MACHINES & EQUIPMENT

STAMPING

- 4x 25 tons stamping machines
- 1x 32 tons stamping machine
- 1x 35 tons stamping machine
- 4x 45 tons stamping machines
- 2x 60 tons stamping machines
- 1x 80 tons stamping machine
- 1x 125 tons stamping machine
- 1x 160 tons stamping machines

CNC

- 1x press brake 3 mtr 130 ton
- 2x press brakes 2.5 mtr of 80 ton
- 2x CNC milling machine
- 2x CNC tapping machines
- 1x Turret punching machine

WELDING

- 1x laser cutting machine 3kW
- 1x welding robot (Yaskawa)
- Multiple TIG welding
- Multiple MIG welding

DIE-CASTING

- 1x Die casting aluminum 200 ton
- 1x Die casting aluminum 300 ton

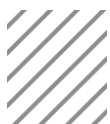

MOLDING

- Injection molding 180 ton

MISC

- 10x drilling machine
- 1x Rolling machine
- 3x tapping arm
- Deburring machines
- 1x drilling machine
- 4x 5-ton stamping, desk version
- 1x Shearing machine
- 2x Riveting machine

MACHINES & EQUIPMENT

LASER TECHNOLOGY

- 1x 3Kw fiber laser cutting machine
- 1x 3Kw tube laser cutting machine
- 2 X Laser engraving machine

TURRET PUNCHING

- 2x 50 tons Amada turret punching

Powder coating/surface treatment

- 1 x Powder coating line
- 1 x Grinding machine
- 1x Tumble deburring
- 2x Sandblasting

Maintenance of equipment

At ABC Vietnam Manufacturing & Sourcing, we apply Total Productive Maintenance (TPM), a holistic approach that originated in Japan and aims for zero breakdowns, zero defects, and zero accidents by involving all employees in proactive and preventive maintenance. By focusing on the eight TPM pillars—ranging from autonomous maintenance and planned maintenance to continuous improvement (Kaizen), training, and safety—we ensure that our operators take ownership of their machines while our maintenance teams drive long-term reliability. This integrated system helps us maximize Overall Equipment Effectiveness (OEE), reduce downtime, improve quality, and create a culture of accountability and teamwork. Through TPM, we not only extend the lifespan of our equipment but also deliver consistent, high-quality results to our customers while maintaining strong competitiveness in the sheet metal industry.
